

VIDEO & DESIGN WORK SAMPLES

SOPHIA ZHUK

Videography

Since the 8th grade, videography is a process I am passionate about. From learning everything about cameras to mastering video editing software like Premiere Pro and dipping my toes into motion graphics with After Effects, videography is a skill I am confident and experienced in.

2021 MEMORIAL TOURNAMENT

VIDEOGRAPHY

During this charity basketball tournament, I photographed, interviewed, filmed, coordinated other photographers, and finally edited together a video for the John McCrossin Memorial Foundation.

2022 MEMORIAL TOURNAMENT

VIDEOGRAPHY

In 2022, the Fife Basketball team welcomed Coach McCrossin, the late John McCrossin's son. The foundation requested us to create a film to commemorate the new coach's first tournament.

SKIT

VIDEOGRAPHY

In this project, I collaborated with two other students to create a skit. I filmed and helped the other two with editing and writing.

<https://youtu.be/MtY5FsUPEw8?si=YLUAU6eR-0EeFBGH>

In this project, I was again recruited to storyboard and film this skit for Fife's film festival.

SPRING TROJAN TV

VIDEOGRAPHY

In this TTV, I overlooked 5 different groups who all collaborated in making segments. I also filmed anchor segments and Master Edited everything together.

FEBRUARY TTV

VIDEOGRAPHY

The logo for 'ShuTube' features the word 'Shu' in a black sans-serif font, followed by 'Tube' in a white sans-serif font inside a yellow rounded rectangle.A white search bar with a thin grey border containing the text 'February TTV 2022' in a black sans-serif font.

For this TTV, I created the themed motion graphics using After Effects to replicate the YouTube format and culture. You will see it in the intro, anchor segments, and outro.

https://youtu.be/TOoUi_Z-d-E?si=n9cWhgdjxtb_hXHM

Photography

A lot more goes into my photography process than one might think. Mastering all the controls and settings on the camera is crucial for gorgeous images. But photography is not only about the camera. Having an eye for composition, lighting, color theory, and even storytelling is important.

Graphic Design

In graphic design, I am creating and following brand guidelines, crafting compelling narratives through colors, typography, and layout.

Mastering design software like Photoshop and Illustrator helps me bring my creative designs to life by creating aesthetic and memorable designs.

LOGOS & DESIGNS

Trojan Digital Media

By incorporating iconic symbols into the t-shirt design, anyone will be able to understand the what the club is all about from a glance.

Virtual Realty NW

As a client-based business, the logo must be simple and recognizable. The shutter of a camera and the unique shape of Matterport camera creates a memorable logo whilst representing their services.

CJH Choir

By incorporating iconic symbols into the t-shirt design, anyone will be able to understand the what the club is all about from a glance.

Web Design

Web design is more than putting together a website with HTML, CSS, and JavaScript. My goal is to craft user-friendly interfaces with modern design and practices. I'm passionate and experienced in the world of web and UX design.

VIRTUAL REALTY NW

A Tacoma base Real Estate Photography business website. Following their brand guideline fonts, colors, and logos I was able to design a modern static page that showcases their mission, services, staff, and work.
